Monoclonal Antibody to KERATIN EPITHELIAL - Purified

Catalog No.:	BM5002X
Quantity:	0.5 mg
Concentration:	IgG concentration 1.0mg/ml
Host / Isotype:	Mouse / IgG1
Recommended Isotype Controls:	SM10P (for use in human samples), SM20P (for use in rat samples), AM03095PU-N
Clone:	AE3
Immunogen:	Human epidermal cells
Format:	**State:** Purified IgG - liquid **Buffer System:** Phosphate buffered saline 0.09% Sodium Azide,
Applications:	Immunohistology - Frozen, Western Blotting, Immunohistology - Paraffin Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	OBT1433 recognises most of the basic (type II) keratins. It is especially useful for the distinction between carcinomas and non-epthelial tumours.
Storage:	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. 12 months from date of despatch.
Caution:	(A full Health and Safety assessment is available upon request) This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

For research and in vitro use only. Not for diagnostic or therapeutic work.
Material Safety Datasheets are available at www.acris-antibodies.com or on request.
