### **Product Information**

Contents: Phycoerythrin (PE) anti-human CD54 (ICAM-1)

Catalog Number: 12-0549 Sizes: 25 tests, 100 tests

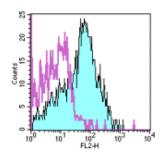

Formulation: Phosphate buffer pH 7.2, 150 mM NaCl, 0.09% NaN<sub>3</sub>, 0.2% BSA Storage Conditions: Store at 4°C.

DO NOT FREEZE.

LIGHT-SENSITIVE MATERIAL.

Clone: HA58

Isotype: Mouse IgG1, κ HLDA No.: VI A095

Staining of normal human peripheral blood cells with PE mouse IgG1 isotype control (cat. 12-4719) (open histogram) or PE HA58 (colored histogram). Cells in the lymphocyte gate were used for analysis.

\*Functional Grade™ (FG™): Azide-free, sterile-filtered, and endotoxin < 0.001 ng/µg. Purified: Contains azide, not sterile-filtered, and not endotoxin tested.

# Description

The HA58 monoclonal antibody reacts with human CD54 (InterCellular Adhesion Molecule-1, ICAM-1), a 90-110 kDa transmembrane glycoprotein expressed by monocytes, lymphocytes and endothelial cells. Expression of CD54 is upregulated on activated lymphocytes. Interaction of CD54 with its ligand CD11a is important in the inflammatory response.

#### Usage

For research use only, not for diagnostic or therapeutic use. The HA58 antibody has been reported for use in flow cytometric analysis.

## **Applications Tested**

The HA58 antibody has been pre-titrated and tested by flow cytometric analysis of human peripheral blood leukocytes. This can be used at 20 µl per 100 µl blood (or per 1 million cells in 100 µl total staining volume).
