

alpha neo Endorphin antibody

Catalog No.:	15-288-21175B
Quantity:	0.1 mg
Concentration:	whole antiserum
Background:	Alpha neo endorphin has been localised to the dorsal raphe nuclei and therefore could be involved in the control of the nociceptive information.
Host / Isotype:	Chicken
Immunogen:	Synthetic peptide: YGGFLRKYPK (Porcine).
Format:	Purification: Whole antiserum Buffer System: Preservative: 0.09% Sodium Azide.Constituents: PBS containing 0.3% Triton.Whole serum is supplied - diluted.
Applications:	IHC-Fr, RIA Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Cross-reacts with Rat and Pig. Expected to cross-react with Mouse (100% identity with immunogen), Xenopus laevis (100% identity with immunogen), (100% identity with immunogen) Bombina orientalis and Guinea pig (100% identity with immunogen) due to sequence homology.Antibody reactivity and working conditions may vary between species. Not yet tested in other species.
Storage:	Keep as concentrated solution. Store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.
