

Polyclonal Antibody to FLJ10261 - Aff - Purified

Catalog No.:	15-288-21191
Quantity:	0.1 mg
Background:	Follicle stimulating hormone is produced in the anterior lobe of the pituitary gland. In immunohistochemistry the antibody stains Beta cells in the pars distalis of the pituitary gland.
Host / Isotype:	Chicken
Immunogen:	Human FSH
Format:	State: Liquid ascites containing 0.09% Sodium Azide as preservative.
Applications:	Western blotting. Immunohistochemistry on Frozen and Paraffin Sections: 1/10 using the ABC method, test optimal dilution by serial dilution. Dilution buffer: PBS containing 1% BSA and 0.1% Sodium Azide or TBS. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Human Follicle Stimulating Hormone (FSH). Species: Human. Others not tested.
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Shelf life: one year from despatch.

For research and in vitro use only. Not for diagnostic or therapeutic work.
