

Polyclonal Antibody to Rat Albumin -FITC

Alternate names:	AP-4
Catalog No.:	15-288-21438
Quantity:	0.1 mg
Concentration:	21.2 mg/ml (by OD 280 nm)
Host / Isotype:	Chicken
Immunogen:	Highly pure albumin from rat serum
Applications:	Immunofluorescence (use 1:10 as a starting dilution). ELISA: 1/1K - 1/60K (as a guide). Optimal dilutions should be determined by the user. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognises rat and bovine albumin and may crossreact with albumin from other species.
Storage:	Store the antibody in aliquots at -20°C. Avoid repeated freezing and thawing. Shelf live: on

For research and in vitro use only. Not for diagnostic or therapeutic work.
