

LRRK2 [Leucine-rich repeat kinase 2] antibody

Catalog No.:	15-288-22364F
Quantity:	0.1 mg
Concentration:	1 mg/ml
Background:	LRRK2 is a 286 kDa protein belonging to the ROCO family. It is a multifunction protein involved in Parkinson's disease.
Host / Isotype:	Chicken
Immunogen:	A C-terminal synthetic peptide made to the human LRRK2 protein sequence (between residues 2500-2527).
Format:	State: This antibody is supplied as 0.1 ml of purified antibody [1 mg/ml] in Tris-citrate/phosphate [pH 7-8] containing 0.1% sodium azide. Purification: Affinity Purified
Applications:	IF, WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Human and bovine. Other species have not been tested. There is 87% homology of the immunogen with the mouse and rat LRRK2 proteins.
Storage:	Store at 4 degrees Celcius. Avoid repeated freeze-thaw cycles.

For research and in vitro use only. Not for diagnostic or therapeutic work.
