

MRP8 antibody [MRP8 7C12/4]

Catalog No.:	15-288-22573F
Quantity:	0.1 mg
Concentration:	1 mg/ml
Background:	MRP-8 and MRP-14 are cytosolic calcium-binding proteins of 8kDa and 14kDa that form a heterodimer. MRP-8 and MRP-14 are expressed in peripheral blood monocytes, neutrophils and keratinocytes (mature). Expression is lost on tissue maturation of monocytes to macrophages. MRP-14 may be associated with monocyte and neutrophil activation and the accumulation of these cells in inflammatory sites.
Host / Isotype:	Chicken
Immunogen:	recombinant Human MRP8
Format:	Purification: IgG fraction Buffer System: Preservative: None. Constituents: PBS
Applications:	ELISA, FACS, WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Human - Not yet tested in other species
Storage:	Keep as concentrated solution. Store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.

Material Safety Datasheets are available at www.acris-antibodies.com or on request.
