

Tankyrase antibody

Catalog No.:	15-288-22600
Quantity:	0.1 mg
Concentration:	1.1 mg/ml
Background:	The ~142 kDa Tankyrase protein is ubiquitously expressed in mammalian cells and is localized to human telomeres. It has homology to ankyrins and to the catalytic domain of poly (adenosine diphosphate-ribose) polymerase (PARP). Tankyrase binds to TRF1 (telomeric repeat binding factor-1), which negatively regulates the maintenance of telomere length.
Host / Isotype:	Chicken
Immunogen:	A synthetic peptide internal to tankyrase.
Format:	State: Liquid Purification: Affinity purified Buffer System: PBS with sodium azide
Applications:	WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Human Tankyrase. Other species not tested.
Storage:	Keep as concentrated solution. Store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.
