

MCM6 antibody

Catalog No.:	15-288-22957
Quantity:	0.1 mg
Concentration:	1 mg/ml
Background:	MCM6 may be involved in the control of a single round of DNA replication during S phase. It binds to chromatin during G1 and detaches from it during S phase as if it licenses the chromatin to replicate.
Host / Isotype:	Chicken
Immunogen:	A 31-amino acid synthetic peptide, which represented a portion of human Minichromosome Maintenance Deficient 6 encoded by exon 17 (LocusLink ID 4175).
Format:	State: Liquid
Applications:	WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This product recognizes human MCM6. Other species have not been tested. Reactivity with mouse and rat is likely based upon sequence identity (30/31 identical residues).
Storage:	Keep as concentrated solution, aliquot and store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.
