

CATALOGUE #: 8CV150-10

PRODUCT NAME: Recombinant Cytomegalovirus Pp150, His 10, antigen

Source: Recombinant *E. coli*

Purification: Chromatography

Presentation: 25 mM Tris-HCl, pH 8.0, 1 mM EDTA, 50 % glycerin

Analysis: Purity > 95%

Applications: Immunoreactive with sera containing CMV-specific antibodies.

Storage: - 20 °C

Other information: Some applications in which these products may be used are covered by patents issued and applicable in certain countries. Because purchase of these products does not include a license to perform any patented application, users of these products may be required to obtain a patent license, depending on the particular application and country in which the product is used.
