

AM05090PU-N**Monoclonal Antibody to Staphylococcus aureus Enterotoxin C (SEC) - Purified**

Alternate names:	S. aureus, entC1, entC2, entC3
Quantity:	1 mg
Concentration:	1,0 mg/ml (prior to lyophilization)
Background:	Staphylococcus aureus are gram-positive bacteria that, although part of the normal flora of humans (nasal passages, skin and mucous membranes), have the potential to become opportunistic pathogens. S. aureus is a frequent cause of a wide range of infections and some bacterial strains have become resistant to many commonly used antibiotics.
Uniprot ID:	P01553
NCBI:	1280
Host / Isotype:	Mouse / IgG1
Recommended Isotype Controls:	AM03095PU-N
Clone:	286-13165
Immunogen:	Staphylococcus aureus Enterotoxin C (SEC)
Format:	State: Lyophilized purified Ig Purification: Protein A chromatography Buffer System: 0.01M Phosphate, pH 7.4 containing 0.9% Sodium chloride Reconstitution: Restore with 1ml deionized water.
Applications:	ELISA. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody is specific to Staphylococcus aureus Enterotoxin C (SEC). Recognizes SEC1, SEC2 and SEC3.
Storage:	Prior to reconstitution store at 2-8°C. Following reconstitution store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. If aliquoted for long term storage, fill volume should be equal to or greater than 50% of the nominal fill volume of the vial used. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
