## Monoclonal Antibody to CD6 - Ascites

T-cell differentiation antigen CD6, T12, TP120 Alternate names:

**Catalog No.:** AM05698SU-N

**Quantity:** 0.25 ml

**Background:** CD6 is a type I membrane protein expressed by thymocytes, mature T cells, a subset of B

> cells known as B1 cells, and some cells in the brain. CD6 is a member of the scavenger receptor cysteine rich (SRCR) family of proteins, which includes the leukocyte antigen CD5. The extracellular domain of CD6 is composed of three SRCR domains and has the same domain organization as CD5. The ligand for CD6 is CD166 also known as activated leukocyte cell adhesion molecule. Through its interaction with CD166 in the thymus, CD6

may have a role in T cell development.

**Uniprot ID: Q9BH12 NCBI:** 9913

**Host / Isotype:** Mouse / IgG2b

Clone: CC38

Format: **State:** Liquid Ascites

Buffer System: Phosphate buffered saline containing 0.09% Sodium Azide

**Applications:** Immunohistochemistry on frozen sections: 1/50.

> Immunoprecipitation. Flow Cytometry: 1/100.

Other applications not tested. Optimal dilutions are dependent on conditions and should

be determined by the user.

**Specificity:** This antibody recognises the homologue of the Human CD6 antigen expressed on

thymocytes and T and B cell subsets. CC38 immunoprecipitates a 110 kD molecule under

reducing conditions. Species: Bovine.

Other species not tested.

Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Storage:

> Avoid repeated freezing and thawing. Shelf life: one year from despatch.

**Caution:** (A full Health and Safety assessment is available upon request) This product contains

sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by

trained staff only.

**General Readings:** 1. Letesson, J.J. et al. (1991) Individual antigens of cattle. Bovine CD6 (BoCD6). Vet.

Immunol. Immunopathol. 27: 61 - 64.
