

Monoclonal Antibody to Rainbow trout IgM - Purified

Alternate names:	Oncorhynchus mykiss
Catalog No.:	AM05932PU-N
Quantity:	0.2 mg
Host / Isotype:	Mouse / IgG1
Recommended Isotype Controls:	AM03095PU-N
Clone:	n.n.
Format:	State: Lyophilized purified Ig fraction Reconstitution: Restore in 1.0 ml phosphate buffered saline.
Applications:	ELISA. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognises IgM from both rainbow trout (Oncorhynchus mykiss) and the Atlantic Salmon (Salmo salar). The product recognises the IgM heavy chain. Species: Fish. Other species not tested.
Storage:	Prior to reconstitution store at 2-8°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. Shelf life: One year from despatch.
