

Human Triiodothyroninen HRP-Conjugated

Alternate names:	L-Triiodothyronine, T3, Triiodo-L-Thyronine
Catalog No.:	AM09309HR-N
Quantity:	0.2 ml
Background:	Triiodothyronine is a hormone made by the thyroid gland. It has three iodine molecules attached to its molecular structure. It is the most powerful thyroid hormone, and affects almost every process in the body, including body temperature, growth, and heart rate.
Host / Isotype:	Mouse / IgG1
Clone:	T3-1
Immunogen:	HRP conjugated Human Triiodothyronine (T3)
Format:	State: Liquid purified Ig fraction. Buffer System: 50% PBS and 50% Glycerol. Label: HRP
Applications:	ELISA: This product can be used as tracer in competence ELISA with our anti-Triiodothyronine monoclonal antibody (Clone T3-1, AM09309PU-N). <i>Suggested Tracer Concentration: 1/1000.</i> Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Reactive to Antibody of Triiodothyronine (T3).
Species Reactivity:	Tested: Human.
Add. Information:	Source: Triiodo-L-thyronine sodium salt [Sigma Cat No: T2752]
Storage:	Store the antibody at -20°C. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
