

Monoclonal Antibody to Follicular Dendritic Cells - Supernatant

Catalog No.:	AM33160SU-N
Quantity:	1.5 ml
Background:	Follicular dendritic cells are found in the germinal centres of lymphoid organs. The cells have narrow cytoplasmic processes that interdigitate between densely populated areas of B lymphocytes in lymph node follicles and in the spleen.
Host / Isotype:	Mouse / IgG1
Clone:	74.3
Immunogen:	Follicular dendritic cells. Hybridoma cell-line: CVI.foll.dend.74.3. Fusion: Mouse Balb/c, spleen cells, fusion partner Sp2/O.
Format:	State: Liquid Supernatant Preservatives: None
Applications:	ELISA. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognizes Chicken Follicular Dendritic Cells.
Storage:	Upon receipt, store undiluted (in aliquots) at -20°C. Proteins were handled under sterile conditions. After opening, Add a preservative to prevent protein degradation. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
