

AM39052SU-N**Monoclonal Antibody to LAMA tumor / HIS30 - Supernatant**

Alternate names:	LAMA pre-B cell tumor
Quantity:	1 ml
Host / Isotype:	Mouse / IgG2a
Clone:	HIS30
Format:	State: Liquid cell culture supernatant containing 0.09% sodium azide
Applications:	Flow cytometry. Immunofluorescence. Immunohistochemistry on frozen tissue sections. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	The antibody reacts with LAMA pre-B cell leukemia, RStC tumor and Roser leukemia cells. Reactivity with normal cells: a subset of adrenal cortex (Zona glomerulosa).
Species Reactivity:	Tested: Rat.
Storage:	Store undiluted at 2-8°C.
