

AM39053SU-N**Monoclonal Antibody to LAMA tumor subset / HIS31 -
Supernatant**

Alternate names:	LAMA pre-B cell tumor
Quantity:	1 ml
Host / Isotype:	Mouse / IgG1
Clone:	HIS31
Format:	State: Liquid cell culture supernatant containing 0.09% sodium azide
Applications:	Flow cytometry. Immunofluorescence. Immunohistochemistry on frozen tissue sections. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	The antibody recognizes a LAMA pre-B cell tumor subset.
Species Reactivity:	Tested: Rat.
Storage:	Sore undiluted at 2-8°C.
