

AP02237SU-S**Polyclonal Antibody to Thymulin - Serum**

Alternate names:	Thymic Factor
Quantity:	20 µl
Background:	Thymulin, a nonapeptide secreted by the thymus, is an essential hormone for T lymphocyte differentiation and function.
Host:	Rabbit
Immunogen:	Synthetic Human Thymulin AA Sequence: EAKSQGGSN
Format:	State: Lyophilized Serum Reconstitution: Restore in aqua bidest to initial volume.
Applications:	RIA. ELISA (1/15000). Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody reacts with Thymulin. It does not react with Human Thymosin alpha 1 and Human Thymosin beta 4. Species: Human. Other species not tested.
Storage:	Store lyophilized at 2-8°C and reconstituted at -20°C. Avoid repeated freezing and thawing. Shelf life: One year from despatch.
