Polyclonal Antibody to Laminin - Liquid

Alternate names:	Laminin-1
Catalog No.:	AP10396PU-N
Quantity:	0.2 ml
Background:	Laminins are a family of extracellular matrix glycoproteins that are a major component of basement membranes. They are involved and/or implicated in a vast number of important biological processes that include metastasis, cell adhesion, differentiation, migration, signaling, and neurite outgrowth. Given their participation in diverse physiological processes, it is not surprising that defects in their genes or how these important proteins assemble, can lead to numerous, complex and serious diseases.
Host / Isotype:	Rabbit / IgG
Immunogen:	Rabbits were immunized with a purified Laminin-1 isolated from Mouse EHS tumor.
Format:	State: Liquid IgG fraction. Buffer System: 50% Glycerol and 0.01% Sodium Azide.
Applications:	Western Blot (1/1,000–1/5,000). Immunocytochemistry (1/100–1/2,500). Immunofluorescence (1/100–1/2,500). Immunohistochemistry. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognizes Laminin-1.
Storage:	Store the antibody (in aliquots) at -20°C. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
