

AP16396PU-N**Polyclonal Antibody to NANOG (144-157) - Aff - Purified**

Alternate names:	Homeobox protein NANOG
Quantity:	0.1 mg
Concentration:	0.5 mg/ml
Background:	<p>Nanog is a newly identified homeodomain-bearing transcriptional factor. Nanog expression is specific to early embryos and pluripotential stem cells including mouse and human embryonic stem (ES) and embryonic germ (EG) cells. It is a key molecule involved in the signaling pathway for maintaining the capacity for self-renewal and pluripotency, bypassing regulation by the STAT3 pathway. Nanog mRNA is present in pluripotent mouse and human cell lines, and absent from differentiated cells. Nanog-deficient ES cells lose pluripotency and differentiate into extraembryonic endoderm lineage. Thus it is one of the molecular markers suitable for recognizing the undifferentiated state of stem cells in the mouse and human.</p> <p>NANOG is a new marker for testicular carcinoma in situ and germ cell tumors.</p>
Uniprot ID:	Q9H9S0
NCBI:	9606
GeneID:	79923
Host:	Goat
Immunogen:	Peptide from the internal region of the protein sequence according to NP_079141.2. AA Sequence: C-QNQRMKSKRWQKNN
Format:	State: Liquid purified Ig fraction Purification: Ammonium sulphate precipitation followed by Antigen Affinity Chromatography using the immunizing peptide Buffer System: Tris saline, pH~7.3 Preservatives: 0.02% Sodium Azide Stabilizers: 0.5% BSA
Applications:	Peptide ELISA: 1/64000 (Detection Limit). Western blot: 0.03-0.1 µg/ml. Approx 38kDa band observed in Human Ovary lysates (calculated MW of 34.6kDa according to NP_079141.1). Immunofluorescence: Parts of a keratinocyte-derived colony of induced pluripotent stem cells are stained for Nanog (green). (See also Ref.2) This antibody does not work in PFA-fixed frozen embryos and ESC from Mouse. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody is specific to NANOG.
Species Reactivity:	Tested: Human, Pig. Expected from sequence similarity: Canine (Dog).

Storage:

Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.
Avoid repeated freezing and thawing.
Shelf life: one year from despatch.
