

Polyclonal Antibody to Glu-Glu Epitope Tag (EYMPME) - Aff - Purified

Alternate names:	Glu-Glu cleavage site tag, Glu-Glu-Tag
Catalog No.:	AP31387PU-N
Quantity:	0.1 mg
Concentration:	0.5 mg/ml
Host:	Rabbit
Immunogen:	Glu-Glu (EYMPME) conjugated with KLH
Format:	State: Liquid purified Ig fraction Purification: Immunoaffinity Chromatography: Immunoaffinity isolated using peptide conjugated with a different carrier Buffer System: PBS. pH 7.2 containing 0.09% Sodium Azide as preservative
Applications:	ELISA: 0.5 µg/ml - 0.05 µg/ml. Western blot: 1 µg/ml - 0.2 µg/ml. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This Antibody activity was verified by ELISA using Glu-Glu conjugated with BSA. Species: Human. Other species not tested.
Storage:	Store the antibody undiluted at 2-8°C. Shelf life: one year from despatch.
