

AP31537SU-N**Polyclonal Antibody to Feline IgG (H+L chain) - Serum**

Alternate names:	Cat IgG, Cat Immunoglobulin G
Quantity:	1 ml
Host:	Goat
Immunogen:	Purified normal IgG isolated from pooled cat serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Format:	State: Delipidated, heat inactivated lyophilized stable whole serum Buffer System: No preservative added, as it may interfere with the antibody activity. No foreign protein added. Reconstitution: Restore with 1 ml sterile distilled water.
Applications:	Can be used: • In precipitating techniques as Immunoelectrophoresis and Double Radial Immunodiffusion to identify the presence of IgG. • As secondary antibody to precipitate the immunoglobulin in normal Cat serum. • To prepare an immunoabsorbent for the production of Ig-free Cat serum, plasma or non-Ig preparations. <u>Directions for use:</u> Immunoelectrophoresis: Use 2 µl or equivalent against 120 µl antiserum. Double Radial Immunodiffusion (Ouchterlony): Use a rosette arrangement with 10 µl antiserum in a 3 mm diameter centre well and 2 µl serum samples (neat and diluted) in 2 mm diameter peripheral wells. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	The reactivity of the antiserum is directed to the Fc and Fab subunits of the IgG molecule. It includes a certain degree of reactivity with other immunoglobulins via the common Fab portion. It does not react with any non-Ig protein in Cat serum, as tested by Immunoelectrophoresis and Double Radial Immunodiffusion. <u>Cross-reactivity:</u> Inter-species cross-reactivity is a normal feature of antibodies to immunoglobulins, since Ig of different species frequently share antigenic determinants. Cross-reactivity of this antiserum has not been tested in detail. Species: Feline. Other species not tested.
Storage:	Prior to reconstitution store at 2-8°C. Following reconstitution store undiluted at 2-8°C for one week or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
