

AP53041PU-N**Polyclonal Antibody to OR2T6 (C-term) - Aff - Purified**

Alternate names:	OR2T9, Olfactory receptor 2T6, P
Quantity:	0.4 ml
Concentration:	lot specific
Background:	Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms.
Uniprot ID:	Q8NHC8
NCBI:	NP_001005471
GeneID:	254879
Host / Isotype:	Rabbit / Ig
Immunogen:	KLH conjugated synthetic peptide between 243-272 amino acids from the C-terminal region of human OR2T6
Format:	State: Liquid purified Ig fraction Purification: Protein A column, followed by peptide affinity purification Buffer System: PBS containing 0.09% (W/V) Sodium Azide as preservative
Applications:	ELISA: 1/1000. Western Blot: 1/100-1/500. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognizes Human OR2T6 (C-term).
Add. Information:	Molecular Weight: 34765 Da
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
General Readings:	Fuchs, T., et al. Genomics 80(3):295-302(2002)

Pictures:

Western blot analysis of OR2T6 Antibody (C-term) Cat.-No AP53041PU-N in ZR-75-1 cell line lysates (35ug/lane). This demonstrates the OR2T6 antibody detected the OR2T6 protein (arrow
