

Human Menopausal Gonadotropin - Purified

Catalog No.:	AR10264PU-S
Quantity:	1 mg
Species:	Human
Source:	Human Urine
Format:	State: Sterile Filtered White lyophilized (freeze-dried) powder. The Human MG was lyophilized from a concentrated (1 mg/ml) solution without additives. Reconstitution: Restore in sterile 18MΩ-cm ⁻¹ H ₂ O not less than 100 µg/ml, which can then be further diluted to other aqueous solutions.
Description:	Human Menopausal Gonadotropin is produced from a sterile preparation of placental glucoprotein Human Urine. The MG is purified by proprietary chromatographic techniques. Biological Activity: 100 IU/mg of FSH and 100 IU/mg LH.
Add. Information:	Contaminants: Free of HbsAg, Hepatitis B surface antigen and antibodies to HIV, Hepatitis C and HIV.
Storage:	Prior to reconstitution store at RT for one month or desiccated below -18°C. Following reconstitution store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Avoid repeated freezing and thawing. Shelf life: one year from despatch.
