

**AR31012PU-N****Recombinant Chimeric Chagas Multiantigen (Trypanosoma cruzi)**

<b>Quantity:</b>	0.5 mg
<b>Concentration:</b>	1.0 mg/ml (prior to lyophilization)
<b>Background:</b>	<p>Trypanosoma cruzi, better known as T. cruzi, is a deadly parasite that causes Chagas' disease. This disease is a chronic infection, which primarily affects the heart and nervous system, causing severe neurological disorders, as well as swelling or denervation of nervous tissue in the heart, colon and esophagus. Chagas' disease often goes undiagnosed due to close association of symptoms to heart disease and a variety of other disorders. The organism can circulate in the blood of infected patients for many years after infection, and can lead to transfusion-acquired infections in blood recipients from these infected donors. Contaminated blood transfusions are suspected to be the primary way in which the parasite has been transmitted to industrialized countries.</p>
<b>Species:</b>	T. Cruzi
<b>Source:</b>	E. coli
<b>Format:</b>	<p><b>State:</b> Lyophilized purified protein.</p> <p><b>Purity:</b> 90% pure by SDS-PAGE (Metal Affinity Chromatography)</p> <p><b>Buffer System:</b> 20mM Tris, pH 8.5 containing 100mM Sodium Chloride and 20% Trehalose</p> <p><b>Preservatives:</b> 15 ppm Proclin 300</p> <p><b>Reconstitution:</b> Restore by gently shaking with distilled water to a concentration of 1 mg/ml.</p> <p>Centrifuge before opening to ensure complete recovery of vial contents.</p>
<b>Applications:</b>	<p>Suitable for use in <b>ELISA</b> and <b>Lateral Flow</b>.</p> <p>Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.</p>
<b>Description:</b>	<p>Recombinant. Recombinant Chimeric Chagas Multiantigen (MACH) (<i>Trypanosoma cruzi</i>) produced in E.Coli, containing 6-HIS tag.</p> <p>Polypeptide of 87 amino acids with epitopes PEP-2, TcD, TcE and SAPA.</p> <p><b>Molecular weight:</b> 9.9 kDa</p>
<b>Storage:</b>	<p>Store lyophilized at 2-8°C for 6 months or at -20°C long term.</p> <p>After reconstitution store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C long term.</p> <p>Avoid repeated freezing and thawing.</p> <p>Shelf life: one year from despatch.</p>
