

AR50165PU-N**Human ACOT7 / BACH (1-370, His-tag) - Purified****Alternate names:**

Acyl-CoA thioesterase 7, Brain acyl-CoA hydrolase, Cytosolic acyl coenzyme A thioester hydrolase, Long chain acyl-CoA thioester hydrolase

Quantity:

0.5 mg

Concentration:

1 mg/ml (determined by Bradford)

Background:

ACOT7 is a member of the acyl coenzyme family. This protein hydrolyzes the CoA thioester of palmitoyl-CoA and other long-chain fatty acids. Decreased expression of this protein may be associated with mesial temporal lobe epilepsy. Alternatively spliced transcript variants encoding distinct isoforms with different subcellular locations have been characterized.
