Blocking & Blot Storage Buffer

Catalog No.:	AS00001BU-L
Quantity:	3000 ml
Format:	State: Liquid
Applications:	Western blot (use undiluted): This buffer is useful for blocking membranes and for use as a protective reagent for long term storage of blots. It was especially designed for use with anti-pospho-protein antibodies. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Description:	The blot storage buffer BSB is a PBS/Casein buffer containing detergents. BSB contains phosphatase inhibitors and components that protect membrane bound proteins during long term storage at -20°C.
Add. Information:	Use Antibody Dilution / Blot Incubation Buffer (Cat# AS00002BU-N or AS00002BU-L) to dilute the primary and the secondary antibody to the appropriate concentration.
Storage:	For long term storage, freeze buffer (-20°C) upon arrival. Thawed buffer may be stored at 4°C up to 1 week.
