

## Monoclonal Antibody to Fibroblast Growth Factor Receptor - Ascites

<b>Alternate names:</b>	FGFR
<b>Catalog No.:</b>	BM119
<b>Quantity:</b>	0.1 mg
<b>Concentration:</b>	1.0 mg/ml
<b>Host / Isotype:</b>	Mouse / IgM
<b>Clone:</b>	VBS1
<b>Immunogen:</b>	FGF receptor purified from bovine coronary venular endothelial cells.
<b>Format:</b>	<b>State:</b> Liquid purified IgM <b>Buffer System:</b> PBS containing 0.09% Sodium Azide
<b>Applications:</b>	Immunohistochemistry on frozen and paraffin sections: 1:100 - 1:2,000. ELISA. Immunoprecipitation. Western Blot: 1/250 - 1/500. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
<b>Specificity:</b>	This antibody is specific for the FGF receptor, flg gene product. It is believed to react with a protein epitope rather than carbohydrate receptor epitope. It also reacts with the bek gene product but to a lesser degree. This antibody is a blocking antibody, it inhibits the binding of FGF to the FGF receptor. <b>Species:</b> Bovine, Chicken, Mouse, Human, Rat. Other species not tested.
<b>Storage:</b>	Store the antibody undiluted at 2-8°C. DO NOT FREEZE! Shelf life: one year from despatch.
