

BP2060**Polyclonal Antibody to Insect Cell Line SF9 - Serum**

Quantity:	1 ml
Host:	Rabbit
Immunogen:	Solubilized cells from the ovarian derived cell line of <i>Spodoptera frugiperda</i> .
Format:	State: Liquid neat serum containing 0.1 % ProClin 300 as preservative.
Applications:	ELISA assays, Western blot (1:1,000 - 1:4,000) and dot blot to detect the presence of SF9 antigens. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Reacts with more than 40 SF9 proteins by Western blot.
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Should this product contain a precipitate we recommend microcentrifugation before use. Shelf life: one year from despatch.
