

Polyclonal Antibody to Actin (F + G Actin) - Purified

Catalog No.:	BP208
Quantity:	0.5 ml
Concentration:	7.0 mg/ml
Host:	Rabbit
Immunogen:	Native, from gizzards
Format:	State: Liquid purified IgG Purification: Ammonium Sulphate fractionation Buffer System: PBS buffer, pH 7.2 containing 0.02% sodium azide
Applications:	Western Blot. Immunofluorescence: 1/5 - 1/50. Immunoblotting. Immunohistology: Cells should be fixed at 37°C for 5-10 minutes in freshly prepared formaldehyde at a concentration of 2-3% buffered with a balanced salt solution. Incubate with primary antibody for 60-90 minutes at room temperature. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody reacts with F and G actins, from both muscle and non-muscle tissues, in all vertebrates and invertebrates. Species: Chicken. Other species not tested.
Storage:	Store the antibody at -20°C. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
