

Polyclonal Antibody to ATPase (Na/K) - Ig Fraction

Alternate names:	ATPase Sodium/Potassium
Catalog No.:	BP218
Quantity:	1 ml
Concentration:	20.8 mg/ml (OD280)
Host:	Rabbit
Immunogen:	Enzymatically denatured ATPase (Na ⁺ , K ⁺) from rabbit kidney
Format:	State: Liquid IgG fraction Purification: Ammonium sulphate fractionation Buffer System: PBS, pH 7.2, with 0.09% sodium azide as preservative
Applications:	ELISA (End point dilution 1/64,000 with 1 µg/ml antigen per well). Western Blot (1/500 - 1/2000). Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Adenosine Triphosphatase (Na ⁺ , K ⁺) Species: Rabbit. Other species not tested.
Storage:	Can be shipped at 4°C. Store at -20°C only. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
