Polyclonal Antibody to Alkaline Phosphatase (Human Bone)

Alternate names:	AP, Calf Intestinal Alkaline Phosphatase
Catalog No.:	BP237
Quantity:	1 ml
Concentration:	26.5 mg/ml (OD280)
Host:	Sheep
Immunogen:	Purified Alkaline Phosphatase from human bone.
Applications:	ELISA: To be established in end user assay by titration. In simple ELISA has been used at between 1/1000-1/5000 to give 50% maximal binding in a simple ELISA using 1 µg of antigen coated per well, with HRP conjugated anti-sheep for detection. All incubations at 18d°C. Other applications not tested. Optimal dilutions of this antibody are dependent on conditions and should be determined by the user. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Cross reactivity with other species and types of alkaline phosphatase are under investigation. It is highly likely that such reactivities exist.
Storage:	Aliquot and store at -20d°C. Avoid repeated freezing and thawing. Shelf life: on
