Polyclonal Antibody to Neopterin - Serum

Catalog No.:	BP647
Quantity:	0.5 ml
Background:	Neopterin, a pteridine present in body fluids, is a catabolic product of GTP. It is synthesised by macrophages upon stimulation with interferon-gamma. Immune system activation, malignant disease, allograft rejection, and viral infections (especially in AIDS) result in elevated levels, and it is used as a marker of HIV infection.
Host:	Rabbit
Immunogen:	Neopterin conjugated with BSA.
Format:	State: Liquid Serum without Additives.
Applications:	Suitable for use in ELISA. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody is specific for Neopterin.
Storage:	Store the antibody undiluted (in aliquots) at -20°C Only. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
