Polyclonal Antibody to Neurotensin

Catalog No.:	BP654
Quantity:	0.1 ml
Host:	Rabbit
Immunogen:	KLH conjugate.
Applications:	Immunohistochemistry on paraffin embedded sections: 1/100 - 1/800 (PAP). When using formalin fixed paraffin embedded sections, incubate for 30 minutes at 37°C with the primary antibody. Bouins or Modified Susa fixative for 6-24 hours are recommended before routine wax processing, but formalin is adequate. Other applications not tested. Optimal dilutions of this antibody are dependent on conditions and should be determined by the user. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	The reactive epitope of this antibody has not been characterised. This antibody is inhibited by 10 nmol/ml of Neurotensin with antibody at final dilution. Reacts with human, cat, dog, cow and chicken. Stains cells of the GI tract containing neurotensin.
Storage:	Aliquot and store at -20°C. Avoid repeated freezing and thawing. Shelf life: on
