

BP671**Polyclonal Antibody to Estrone - Serum****Alternate names:**

E1, Oestrone

Quantity:

0.1 ml

Host:

Rabbit

Immunogen:

Synthetic Oestrone conjugated to BSA

Format:**State:** Liquid diluted serum**Buffer System:** PBS, pH 7.2, containing 0.09% sodium azide**Applications:**

ELISA.

3H RIA: 1000 - 3000 TT/vial at working dilution of 1/1000 to 1/3000, using 100 µl per tube.

Dilute with assay buffer to make 1 ml stock solution. Dilute aliquots of the stock solution to give working antibody, use 100 µl/TT.

Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.

Specificity:

BP671 is specific for Oestrone.

Less than 0.01% cross reactivity was observed with 17-beta-Oestradiol, Oestriol, Progesterone and Testosterone.

Storage:

Aliquots of the neat antibody should be stored at -20°C. Avoid repeated freezing and thawing.

Shelf life: one year from despatch.
