

Monoclonal Antibody to Mouse CD32/CD16 (Ly 17.1, Ly 17.2, Fcγ RII/III)

Catalog No.: CL021PX

Quantity: 0.3 mg

Concentration: 0.1 mg/ml

Host / Isotype: var. / cocktail

Clone: cocktail

Format: **State:** Liquid, purified.

Buffer System: This reagent is provided in phosphate buffered saline and contains 0.1% sodium azide as a preservative.

Applications: This antibody is provided in liquid form for application in single, dual or three colour flow cytometry. 1µg is the maximum amount of reagent required per 1x10⁶ cells. For optimal results in various applications, it is recommended that each investigator determine dilutions appropriate for individual use.

Other applications not tested. Optimal dilutions are dependent of conditions and should be determined by the user.

Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.

Specificity: Antibody CL021PX recognizes Mouse Ly 17.1 and Ly 17.2 (CD32/16, Fcγ RII/III receptor) and can be used as an Fc Receptor Blocking antibody.

Species: mouse.

Other species not tested.

Storage: Stable at 4°C. For long term storage, aliquot and freeze unused portions at -20°C in volumes appropriate for single usage. Avoid repeated freeze/thaw cycles. Shelf life: on
