

Monoclonal Antibody to Human Myeloid Specific Antigen

Catalog No.:	DM3150
Quantity:	0.5 ml
Concentration:	0.3 mg/ml
Host / Isotype:	Mouse / IgG1
Clone:	B446
Immunogen:	Human blood lymphocyte nuclei (Pokeweed stimulated).
Applications:	Immunohistochemistry on frozen sections: 1/50 - 1/100. Recommended positive control: Blood, Bone Marrow, Spleen, Tonsil, Thymus. Other applications not tested. Optimal dilutions of this antibody are dependent on conditions and should be determined by the user. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody is specific for an antigen (cytoplasmic) expressed by mature human granulocytes in lymphoid and non-lymphoid tissues. Aliquoting Instructions: Do not dilute the entire reconstituted solution at once. Withdraw aliquots as needed with a micropipette and keep concentrated stock at 4°C. Dilute according to the particular application being used. In general, the 0.05M Borate pH 8.0 containing 0.15M Sodium Chloride, 0.05% Sodium Azide, is a good diluent to use with most antibodies. Avoid diluting the entire contents of the vial at once since the diluted solution may have reduced stability.
Storage:	Store the antibody at 4°C. Do not freeze! Shelf life: on

For research and in vitro use only. Not for diagnostic or therapeutic work.
