

**DP021-05****Polyclonal Antibody to Human IgD (Delta chain specific) - Purified**

<b>Alternate names:</b>	Human Immunoglobulin D
<b>Quantity:</b>	0.5 ml
<b>Background:</b>	Traces of contaminating antibodies have been removed by solid phase absorption. Only the IgD arch appeared in crossed immunoelectrophoresis.
<b>Host:</b>	Rabbit
<b>Immunogen:</b>	IgD isolated from a pool of normal human plasma.
<b>Format:</b>	<b>State:</b> Liquid Ig fraction <b>Buffer System:</b> containing sodium azide as preservative.
<b>Applications:</b>	Immunohistochemistry on paraffin embedded sections: diluted of 1:40-1:100 in an ABC method (30-60 minutes at room temperature) Recommended Positive Control: Tonsil Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
<b>Specificity:</b>	This antibody reacts with the delta chain of human IgD. Cellular Localization: Cytoplasmic <b>Species:</b> Human. Other species not tested.
<b>Storage:</b>	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
