

## PRODUCT DATA SHEET

**Product:** Polyglucosan, clone KM279

**Cat. No:** MC-253 (100 µg)

**Specificity:**

Reacts with polyglucosan isolated from the myocardium of a patient with Lafora disease. Does not react with normal glycogen.

**Species Reactivity:**

Human. Others not tested.

**Ig Isotype:**

Mouse IgM

**Immunogen:**

Polyglucosan isolated from the myocardium of a patient with Lafora disease.

**Format:**

500 µl of purified IgM in PBS pH7.2 at 0.2 mg/ml containing 0.1% NaN<sub>3</sub>, 1% BSA and 0.5 M NaCl.

**Storage:**

Store at -20°C.

**Applications and Suggested Dilutions:**

■ Immunohistochemistry:

Paraffin-embedded tissue staining can be performed.

The optimal dilution for a specific application should be determined by the researcher.

**Limitations:**

For *in vitro* research use only. Not for use in diagnostics or in humans.

**Warranty:**

No warranties, expressed or implied, are made regarding the use of this product. KAMIYA BIOMEDICAL COMPANY is not liable for any damage, personal injury, or economic loss caused by this product.
