

Apolipoprotein A II antibody

Catalog No.:	PCV60
Quantity:	0.2 mg
Concentration:	1 mg/ml
Background:	<p>Apolipoprotein A II is the second most abundant protein of the high density lipoprotein particles. The apolipoprotein A II gene consists of 4 exons and 3 introns. The four exons encode the 5' untranslated region, pre-peptide, a short N-terminal domain and a C-terminal domain composed of a variable number of lipid-binding amphipathic helices. Familial apolipoprotein A II deficiency may result from a splice-junction alteration which blocks splicing of intron 3 from the primary transcript and result in the formation of a non-functional mRNA.</p>
Host / Isotype:	Rabbit
Immunogen:	Full length protein (Human Apolipoprotein A II).
Format:	<p>Purification: Immunogen affinity purified Buffer System: Preservative: 0.01% Thimerosal (merthiolate). Constituents: Lyophilized from 10mg/ml BSA, 0.1M Sodium chloride, 50mM PBS. pH 7.4 Label: Horse Radish Peroxidase</p>
Applications:	<p>ELISA, WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.</p>
Specificity:	Human - Not yet tested in other species
Storage:	Keep as concentrated solution. Store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.
