

SM1023FX**Monoclonal Antibody to Mouse IgE (heavy chain) - FITC**

Alternate names:	Mouse Immunoglobulin E
Quantity:	1 ml
Concentration:	1.0 mg/ml
Host / Isotype:	Rat / IgG1
Clone:	LO-ME-3
Format:	State: Liquid purified Ig fraction Buffer System: PBS Preservatives: 0.09% Sodium Azide Stabilizers: 50% Glycerol Label: FITC
Applications:	Useful as second antibody in Immunoassays , such as ELISA's Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Recognizes Mouse epsilon heavy chain of immunoglobulin (determined by immunodot).
Species Reactivity:	Tested: Mouse.
Storage:	Store undiluted at 2-8°C. This products is photosensitive and should be protected from light. Shelf life: one year from despatch.
