

DAP Kinase 1 antibody [DAPK-55]

Alternate names:	TNFRSF25, APO3, DDR3, DR3, TNFRSF12, WSL, WSL1, WSL-1 protein, Apoptosis-mediating receptor DR3, Apoptosis-mediating receptor TRAMP, WSL protein, Apoptosis-inducing receptor AIR, Apo-3, Lymphocyte-associated receptor of death, LARD, DDR-3, DR-3
Catalog No.:	SP6254CP
Quantity:	50 µg
Concentration:	ascites
Background:	DAP Kinase 1 (death associated protein kinase) is a calmodulin dependent serine/threonine kinase that carries ankyrin repeats and the death domain. DAPK transfectants showed increased sensitivity in vitro to apoptotic stimuli. DAP Kinase 1 may function as a tumor suppressor gene.
Immunogen:	Recombinant full length protein.
Format:	State: Liquid Purification: Ascites Buffer System: Preservative: 0.1% Sodium Azide
Applications:	WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Cross-reacts with Human and Monkey. Not yet tested in other species.
Storage:	Keep as concentrated solution. Store at 4

For research and in vitro use only. Not for diagnostic or therapeutic work.

Material Safety Datasheets are available at www.acris-antibodies.com or on request.
