

PARP3 Antibody

Alternate names:	CASH, CASP8AP1, CLARP, FLAME-1, MRIT, USURPIN, c-FLIP, CFLAR, CASP8 and FADD-like apoptosis regulator, Cellular FLICE-like inhibitory protein, Caspase-eight-related protein, Caspase-like apoptosis regulatory protein, MACH-related inducer of toxicity, Inhibitor of FLICE, FADD-like antiapoptotic molecule 1
Catalog No.:	SP6275CP
Quantity:	50 µg
Concentration:	1 mg/ml
Background:	PARP3 belongs to the PARP family. These enzymes modify nuclear proteins by poly-ADP-ribosylation, which is required for DNA repair, regulation of apoptosis, and maintenance of genomic stability. PARP3 is preferentially localized to the daughter centriole throughout the cell cycle. Alternatively spliced transcript variants encoding different isoforms have been identified.
Immunogen:	Synthetic peptide corresponding the C-term region of of human PARP3.
Format:	State: Liquid Purification: Rabbit IgG is purified by peptide affinity chromatography method. Buffer System: PBS with 2% sucrose
Applications:	IHC, WB Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	Human. Others not determined.
Storage:	Store at -20

For research and in vitro use only. Not for diagnostic or therapeutic work.

Material Safety Datasheets are available at www.acris-antibodies.com or on request.
