

Monoclonal Antibody to Thymocytes + ($\alpha\beta$ + $\gamma\delta$) T subpopulations

Catalog No.:	V2B11-05
Quantity:	0.5 mg
Concentration:	1.0 mg/ml V2B11-05: 0.5 mg
Host / Isotype:	Mouse / IgM
Clone:	2B11
Applications:	Suitable for flow cytometry, cell function. Other applications not tested. Optimal dilutions of this antibody are dependent on conditions and should be determined by the user. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody detects Thymocytes + ($\alpha\beta$ + $\gamma\delta$) T subpopulations in swine. It labels 17 % PBMC.
Storage:	Store the antibody at 2-8°C. Should this product contain a precipitate we recommend microcentrifugation before use. Shelf life: one year from despatch.
